Contents

Part I  Complex Networks

Complex Network Analysis and Nonlinear Dynamics .......................... 3
Luis M. Varela and Giulia Rotundo

An Overview of Diffusion in Complex Networks ............................. 27
Dunia López-Pintado

Opinion Dynamics on Networks .................................................. 49
Ugo Merlone, Davide Radi, and Angelo Romano

Econometric Aspects of Social Networks ...................................... 65
Mariano Matilla-García and Jesús Mur

An Overview of the Measurement of Segregation: Classical
Approaches and Social Network Analysis ..................................... 93
Antonio Rodriguez-Moral and Marc Vorsatz

Part II  Complex Network Analysis Applied to Economic
Theoretical and Empirical Issues

An Investigation of Interregional Trade Network Structures ............ 123
Roberto Basile, Pasquale Commendatore, Luca De Benedictis,
and Ingrid Kubin

The Empirics of Macroeconomic Networks: A Critical Review .......... 173
Giorgio Fagiolo

Bank Insolvencies, Priority Claims and Systemic Risk .................... 195
Spiros Bougheas and Alan Kirman

Complex Networks in Finance .................................................... 209
Anna Maria D’Arcangelis and Giulia Rotundo
Part III  Dynamical Systems

A Formal Setting for Network Dynamics .............................................. 239
Ian Stewart

Dynamics on Large Sets and Its Applications
to Oligopoly Dynamics ................................................................. 267
Jose S. Cánovas and María Muñoz Guillermo

Attracting Complex Networks .......................................................... 309
G. Guerrero, J.A. Langa, and A. Suárez

Good Old Economic Geography ......................................................... 329
Tönu Puu
